Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION***Claim Rejections - 35 USC § 112***

1. Claims 1, 24-42, are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, recites "p is an integer of 0 or more". This is indefinite because if $p = 4, 5$, etc., Y_{3-p} becomes Y_{-1} , Y_{-2} etc., resulting in the Si atom possessing more than 4 bonds. The recitation of "p is 0 or more", should be corrected to recite "p is an integer that ranges from 0 to 3". Appropriate correction is required.

Claims 1, 27-42, recite a method of forming a film pattern, and the claims only recite forming an organosilicon compound film and irradiating the film with light. It is not clear to one of ordinary skill in the art how a molecular film pattern can be formed by merely irradiating the film with light; irradiating the film would only cure the entire film. Additionally, claims 40, 41, and 42 recite forming a semiconductor device, an electro-optical device, and an electronic device respectively. It is not clear to one skilled in the art, how a semiconductor device, an electro-optical device, and an electronic device can be formed by merely depositing an organo silicon compound to a surface and irradiating the deposited film; the claimed method will only result in an organosilicon film that is completely cured, and one skilled in the art will not envision the claimed devices. Appropriate correction is required.

Allowable Subject Matter

2. Claim 1, 27-42, would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Response to Arguments

3. Applicant's arguments with respect to claims 1, 24-42, have been considered but are moot in view of the new ground(s) of rejection. The 102 rejection made in the previous office action has been withdrawn. A new 112 rejection has been made over the claimed subject matter. See paragraph no. 1.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 1756

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Daborah Chacko-Davis whose telephone number is (571) 272-1380. The examiner can normally be reached on M-F 9:30 - 6:00. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark F Huff can be reached on (571) 272-1385. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.
